

To whom it may concern:

We have worked with IMI on a handful of Hilton branded projects including the Hampton Inn in White Marsh, MD and the Hilton Garden Inn in White Marsh, MD. On both projects they provided competitive pricing, aggressive lead times, and great service. The materials they supplied included the tub surrounds & soap dishes and all was quality product. Also, when there was some breakage, they were able to act fast to remedy the situation.

We are pleased with them as a vendor and will most certainly consider them on future projects.
